

MINDSET IN SOCIAL CARE

CORRA
FOUNDATION
voice • power • change

Delivered by [Winning Scotland](#) in partnership with [The Promise Partnership](#) and [The CORRA Foundation](#)

WHAT IS THIS?

Targeted specifically at residential and care workers, this is a course designed to increase your knowledge of growth mindset and in turn support young people to achieve all they can in life.

As a pilot, registration is fully-funded, making the course free to anyone supporting care experienced young people and keen to make connections with other care professionals.

WHAT WILL BE DELIVERED?

The course content is based on increasingly clear research. The idea that we don't have or can't develop certain abilities; "I'll never be able to play the piano" or "I'm not a maths person". For most people, this is a myth, the reason isn't because of some fundamental difference in our brains, it's because of previous life experiences.

This content focuses on supporting young people to **create a love of learning, recognise wider achievement, build self belief, share best practice** whilst **strengthening relationships** between young people and care staff.

Delivered over a 3 month period, the course uses a mix of face to face seminars, supported with online learning.
